Inspire and engage the next generation as you share your knowledge and enthusiasm for ICT, develop your skills and make a difference to Australia’s future.

CSIRO Education’s Scientists and Mathematicians in Schools now includes ICT in Schools, a partnership program which provides ICT professionals a unique opportunity to partner with teachers to bring real world ICT to classrooms and inspire students about current practice and future possibilities.

ICT in Schools creates and supports ongoing, flexible partnerships between ICT professionals and teachers across Australia.

ICT professionals can:
- Support ICT activities
- Organise a workplace tour
- Act as a mentor to students or teachers
- Help with a school code club
- Talk about their research or career in ICT

Visit www.scientistsinschools.edu.au/ict for information and to register.

About Scientists and Mathematicians in Schools
CSIRO Education’s Scientists and Mathematicians in Schools is a national program providing skilled volunteers the opportunity to have a positive impact and make a difference to science, technology, engineering and mathematics (STEM) education in Australian schools. Operating since 2007, there are currently 1,660 active partnerships in 1,172 schools nationwide. SMiS is funded by the Australian Government and CSIRO, and managed by CSIRO Education. www.scientistsinschools.edu.au
