
Computing education conventicles and remote university visits

Simon

ALTA fellow

Computing education conventicles

- Localised informal mini-conferences
- Innovation, development, and research in computing education
- No peer review, no registration cost, no publication . . . just sharing – typically of papers already accepted elsewhere
- Useful for cities with multiple universities

Conventicle history

	01	02	03	04	05	06	07	08	09	10	11	12	13
Sydney	Light Green	Light Green	Light Green	Light Green	Light Green	Light Green	Red	Red	Red	Red	Light Green	Light Green	Yellow
Melbourne	Light Blue	Light Blue	Light Blue	Light Green	Light Green	Light Green	Light Green	Light Green	Light Green	Light Green	Light Green	Light Green	Yellow
Brisbane	Light Blue	Light Blue	Light Blue	Light Green	Light Green	Light Green	Light Green	Red	Light Green	Red	Red	Light Green	Yellow
Perth	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Green	Yellow
Adelaide	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Blue	Light Green	Yellow

Continuity relies on willing hosts . . .
and somebody who's prepared to prod them

Remote university visits

- What about all those universities out of reach of the conventicles?
- An ALTA fellow might be able to visit these universities to pass on some of what happens at the conventicles
- Who'd like a visit?
